

**THE UNITED REPUBLIC OF TANZANIA
MINISTRY OF WATER**

6th December 2021

Tender No. ME:011/2021/2022/W/07

INVITATION FOR PREQUALIFICATION

Simiyu Climate Resilience Project, Component 2: Climate Resilient water supply for sustained access to waterWater Supply Schemes from Lake Victoria to Nyashimo, Bariadi, and Lagangabilili Towns, Phase 1

LOT 2: Simiyu Bulk Water Supply – WC-2

Laying of Transmission Main Pipeline and Distribution Networks for three (3) Towns (Nyashimo, Bariadi & Lagangabilili) including reconnection of House Connections; Construction of Reservoirs and Pumping Stations; and Installa-tion of Bulk Water Meters

Project Ref-Nº: **BMZ201567411/302000073/KFW 507595**

Funding: **German Government, Government of Tanzania and Green Climate Fund represented by Kreditanstalt für Wiederaufbau (KfW).**

Project measures:

The Simiyu Climate Resilience Project (SCRP) is financed by the Green Climate Fund (GCF), the German Government through KfW and the Government of Tanzania. The Ministry of Water (MoW) is the Project Executing Agency (PEA) and is steering and overseeing the project.

The objective of the SCRP is to increase the climate resilience of rural and urban households, particularly small-scale farmers and women living in the Simiyu Region, and to improve policies and regulations for cross-sectoral action towards climate change adaptation.

Requested Works:

The Works Contract (WC) 2 of bulk water supply system consists of the following:

- Transmission mains pipeline of about 130km ranging from 200 mm to 900 mm Diameter steel.
- Water storage reservoirs (Reinforced Concrete) of capacity ranging from 500 m³ to 15,000 m³.

- Pumping Station with sump capacity of 6,000m³.
- Distribution Network of between 160 and 320 km in Three (3) towns (Nyashimo, Bariadi & Lagangabilili) and their respective peri-urban areas, diameter ranging from 50 mm to 450 mm (HDPE and Steel)
- Installation of Bulk Water Meters and Pressure Reducing Valves.
- Reconnection of existing house connection.
- Main Road crossing with trenchless technology,
- Construction of Pipe Bridges,
- Connection to HV Power Supply.

WC2 is intended to be based on the FIDIC Conditions of Contract for Building and Engineering Works designed by the Employer (Pink Book). Expected Construction Period is 24 Months + 12 Months Defect Notification Period

Companies with qualified personnel, appropriate facilities and experience in the execution of comparable projects may request additional information to prepare pre-qualification documents for the above contract. Pre-qualification documents will be available in English language at the address below and are free of charge. The documents must be completed and submitted in English language.

All short-listed companies will be invited to submit bids. Pre-qualification documents will be collected both physically and electronically through email pmu@maji.go.tz upon submission of application letter to the **The Secretary Ministerial Tender Board, Kolon Building Opposite DUWASA Office, P.O.Box 456 Dodoma**. No liability will be accepted for late delivery.

The Tender Process is subject to KfW's "Guidelines for the Procurement of Consulting Services, Works, Plant, Goods and Non-Consulting Services in Financial Cooperation with Partner Countries", see

<https://www.kfw-entwicklungsbank.de/International-financing/KfW-Development-Bank/Publications-Videos/Publication-series/Guidelines-and-contracts/>

It is planned to award the construction contracts to contractors experienced in design and construction of Intake and Water Treatment Plant.

An "Invitation for Pre-Qualification" (PQ) with more detailed information is available upon written request from **The Secretary Ministerial Tender Board, Ministry of Water, Government City, Maji Street, P. O. Box 456, Dodoma, Tanzania. E-mail: pmu@maji.go.tz.**

Applications for prequalification should be submitted physically in sealed envelopes, delivered to the address below at or before **14:00 hours local time on Tuesday, 4th January 2022**, and be clearly marked "Application to Prequalify for **Lot 2- SIMIYU Bulk Water Supply – DBWC 2: Laying of Transmission Main Pipeline and Distribution Networks for three (3) Towns (Nyashimo, Bariadi & Lagangabilili) including reconnection of House Connections; Construction of Reservoirs and Pumping Stations;**

and Installation of Bulk Water Meters. This advert can also be found in the Germany Trade and Investment (**GTAI**).
